Illinois Home Weatherization Assistance Program

IHWAP

www.weatherizationillinois.com

How Do I Apply?

Use the following list to find the local agency that serves your area. The county names are listed under each agency name to assist you in locating the correct one. When you apply, take proof of your household's income and proof of mortgage/home ownership. If you rent, the agency will give you a form for your landlord to sign.

Do not delay applying for weatherization assistance until the cold weather arrives. Putting it off could mean not getting served because funding is limited.

Where Do I Apply?

Local Weatherization Providers

BCMW Community Services, Inc.
909 E. Rexford Street Centralia, IL 62801-0729
618/532-7388

Counties Served: Bond, Clinton, Marion and Washington

Carver Community Action Agency

Will County Center for Community Concerns

304 N. Scott Street, Joliet, IL 60432-4035

815/722-0722

County Served: Will

The Illinois Home Weatherization Assistance Program (IHWAP) is designed to help low-income residents save fuel and money while increasing the comfort of their homes.

The program is administered by the State of Illinois. Weatherization services are provided by local community action or not-for-profit agencies throughout the state. The local agency that provides weatherization services in your area is listed on the back of this brochure. By contacting the agency provider in your area, you can apply for weatherization services.

Although most dwellings waste energy, different types of houses and apartments have different energy problems. Depending on the circumstances and condition of your dwelling, some of the following weatherization work may be done:

- ▲ **SEALING CRACKS WITH WEATHER STRIPPING AND CAULK**
- ▲ **INSULATING ATTICS AND WALLS**
- ▲ **REPAIRING WINDOWS AND DOORS**

Weatherization services include having an experienced heating contractor examine your heating system. This contractor will make sure the heating system is safe and in good working order. Work on your furnace may include one or more of the following:

- ▲ **CLEAN AND TUNE**
- ▲ **REPAIR**
- ▲ **RETROFIT**
- ▲ **IN SOME CASES ,
REPLACEMENT OF THE UNIT**

How Does the Program Work?

1. A person contacts the appropriate local agency listed on the back of this brochure and an application is made.
2. The agency determines if the household is income-eligible and notifies them within 30 days after all the required documentation has been received.
3. If the household is eligible, one of the trained agency staff will assess the home and conduct an energy audit (survey) that will determine what work can be done to save the most energy.
4. The work to be done on your home will be scheduled and the agency will contact you to arrange a time for the weatherization work to begin.
5. Experienced workers using the work order generated from a computerized audit will apply the appropriate materials to your home.
6. The home is inspected to make sure the work is complete and correct.

Who Is Eligible?

Eligibility is determined by family size and household income in accordance with federal guidelines. Weatherization services are free to households that:

1. Are eligible for the Low Income Home Energy Assistance Program (LIHEAP);
2. Have an occupant receiving Supplemental Security Income (SSI), Temporary Assistance for Needy Families (TANF), Aid to Aged Blind and Disabled (AABD); or

3. Are at or below the following annual income chart:

Income Chart

(effective
July 1, 2004)

| Size of Family | Annual Income |
|-------------------|------------------|
| 1 | \$13,965 |
| 2 | \$18,735 |
| 3 | \$23,505 |
| 4 | \$28,275 |

(For a household with more than four, add \$4,770 for each additional person.)

Renters may be assisted if they are eligible and the landlord agrees to the program terms. A 50 percent landlord contribution for weatherization work is required for rental property.

Income-eligible households with high energy bills in relation to income, and those containing young children, persons with a disability, and/or elderly members will be given priority and receive Weatherization services first. Non-priority, income-eligible households will be served if funding is available; therefore, some eligible households may not receive weatherization during the year they apply.
